Town Warrant

STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Sunapee in the County of Sullivan in said State, qualified to vote in Town affairs.

You are hereby notified to meet at I. O. O. F. Hall in said Sunapee on Tuesday, the fourteenth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

Art. 1. To choose a Town Clerk for the year ensuing.

Art. 2. To hear the reports of the Town Treasurer, Board of Selectmen, Water Commissioners, Auditors, Agents and Committees or other Officers heretofore chosen, and pass any vote relating thereto.

Art. 3. To elect one Selectman for three years, and all other necessary Town Officers for the year ensuing.

Art. 4. To see if the Town will vote to appropriate the sum of twenty thousand dollars for Federal Aid Highway Construction, the rate of interest not to exceed $4\frac{1}{2}$ per cent, and to borrow said sum of twenty thousand dollars and issue the obligations of the Town in the form of bonds to the amount of twenty thousand dollars, to be signed by the Selectmen and Town Treasurer, in accordance with Chapter 129, of the session laws of 1917, and the Municipal Bonds Act of 1895, as

amended by said Chapter 129, and pass any vote relating thereto.

Art. 5. To see what sum of money the Town will raise to pay the outstanding debts and interest on its notes and bonds and pass any vote relating thereto.

Art. 6. To see what sum of money the Town will raise to defray Town charges for the year ensuing, and pass any vote relating thereto.

Art. 7. To see what sum of money the town will raise to repair highways and bridges for the year ensuing and pass any vote relating thereto.

Art. 8. To see if the Town will vote to appropriate ten thousand six hundred sixty-seven dollars, (\$10,667.00), the state being prepared to apportion twenty one thousand three hundred thirty-three dollars, (\$21,333.00), of State and Federal Aid money towards the reconstruction of a section of the Sunapee Lake Road, beginning at the end of the Bull contract, to the intersecting highways beyond the Paper Mill bridges, and pass any vote relating thereto.

Art. 9. To see if the Town will vote to raise three thousand six hundred seventy five dollars, (\$3,675.00), to maintain its trunk line highways, and pass any vote relating thereto.

Art. 10. To see if the Town will vote to accept State Aid for highways, raise and appropriate money for the same, and pass any vote relating thereto.

Art. 11. To see if the Town will vote to accept the provisions of Chapter 117, Laws of 1917, on a section of the Central Road, so-called, and appropriate, or set aside from the amount raised for highway work the sum of two hundred dollars, (\$200.00), for this purpose.

Art. 12. To see what sum of money the Town

will raise for electric lights, and pass any vote relating thereto.

Art. 13. To see what sum of money the Town will raise to maintain its Fire Department, and pass any vote relating thereto.

Art. 14. To see what sum of money the Town will raise for the care of its cemeteries, and pass any vote relating thereto.

Art. 15. To see what sum of money the Town will raise for the maintenance of its public library, and pass any vote relating thereto.

Art. 16. To see what sum of money the Town will raise to widen the street and build a side walk from the Brampton Office to the Fire Station, and pass any vote relating thereto.

Art. 17. To see if the Town will vote to build a road, leading from the Charles Hamil road, to the land of C. H. M. Perkins, on the shore of Mt. View Lake, raise and appropriate money for the same, and pass any vote relating thereto.

Art. 18. To see if the Town will vote to purchase the interest of Clara B. Howe, in the saw mill property, raise or appropriate money for the same, and pass any vote relating thereto.

Art. 19. To see if the Town will vote to raise four hundred dollars, (\$400.00), to help pay the salary of the District Nurse, and pass any vote relating thereto.

Art. 20. To see what sum of money the Town will vote to raise to cooperate with the State in the control of the white pine blister rust, and pass any vote relating thereto.

Art. 21. To see if the Town will vote to license

junk dealers, and pass any vote relating thereto.

Art. 22. To see if the Town will instruct its Selectmen to hire money on the anticipation of taxes, and pass any vote relating thereto.

Art. 23. To see what sum of money the Town will raise for the observance of Old Home Week, and pass any vote relating thereto.

Art. 24. To see what action the Town will take towards making regulations at the Bathing Beach and raise or appropriate money for the same, and pass any vote relating thereto.

Art. 25. To see if the Town will vote to accept the offer of the late Jabe T. Young of a site for the Sunapee Library, or what action they wish to take regarding any other offer of sites that may be made, and pass any vote relating thereto.

Art. 26. To see which of the following sites the Town will vote to approve for the Sunapee Library, namely:—Within the circle of the Sunapee High School, the old Tannery site, the I. O. O. F. site, or the Louis Davis site, and pass any vote relating thereto.

Art. 27. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this twenty fifth day of February, in the year of our Lord nineteen hundred and twenty two.

M. F. KNOWLTON, Treasurer

Report of Water Commissioners

From January 31, 1921 to January 31, 1922

Water system	\$41,834.84		
Collected on rentals 1920		1,058.06	
Collected on rentals 1921		2,293.39	
Collected on rentals 1919		57.50	3,408.95
Rents due and unpaid	\$1,139.68		
Paid for expenses and repairs		1,137.37	
Interest on bonds		228.00	1,365.37
Net Income			\$2,043.58

All Water Bonds outstanding against the Town have been redeemed.

Supplies on Hand

2 vices, 1 pick, 1 iron bar, 1 ditch pump, 1 lead pot, 1 blow torch, 1 tapping machine, 1 die stock with dies, 1 ratchet stock with dies, 2 pipe cutters, 2-2ft, stillson wrenches, 2-12 inch stillson wrench, 1 hack saw, 3 shut off wrenches, 1 pipe cutting machine, 1 steam boiler, 50 feet $\frac{1}{2}$ inch hose, 1 6-inch bend, 1 extra hydrant, 1 length of 8 inch pipe, 1-8 x 6 inch reducer, 2 8 inch sleeves, 3 6-inch sleeves, 5 4-inch sleeves, 100 feet of 2 inch pipe, 100 feet, $1\frac{1}{2}$ inch pipe, 100 feet of $1\frac{1}{4}$ inch pipe, 200 feet 1 inch pipe, $\frac{1}{2}$ doz each of unions, 45s, and Ts, from $\frac{3}{4}$ to 2 inch.

About 500 ft. of $1\frac{1}{4}$ and 1 in. pipe was replaced by 2 inch pipe on Lake Avenue line which makes much better service.

At Georges Mills, the Water Department made connections with the main line pipe to supply tanks

which the Fish and Game club installed for the purpose of rearing fish, which we hope will be a benefit to the lake.

Respectfully submitted,

FRED M. SARGENT

Report of Health Officer

It is pleasing to note that after serving as Health Officer, or a member of the Board of Health, for twenty odd years that the year just closed is without parallel, as no contagious disease has been reported. When we consider that our neighboring town of Claremont has had upwards of one hundred cases of scarlet fever and other towns have reported other contagious diseases, we may be thankful for the good attention given these cases all around us and equally thankful that we have not suffered the effects.

Some regulations should be promulgated for the protection of our water supply, also our summer residents, near the Town Bathing Beach. When bathers of all nationalities within fifty miles of Lake Sunapee numbering upwards of two hundred on a single Sunday crowd on to this beach for the day with no toilet accommodations for either sex and no police protection, something is surely wrong, and trust that some action will be taken at our annual Town Meeting to alleviate this trouble.

The Town Dump is serving a splendid purpose and no one can have any good excuse for dumping elsewhere.

Respectfully submitted,

A. D. FELCH, Health Officer

Engineers' Report of Fire Department

We hereby submit our annual report. Pursuant to vote of the Town at the last town meeting, the Engineers purchased an Oldsmobile combination fire truck, which was placed in commission the last of the summer, but, owing to the fact that there was no way of keeping the fire station warm, as soon as cold weather came, had to take it out of commission. As there has been no fire since the truck came, we can not tell how it will prove in an actual test, but, from the tryouts that have been given it, it must be a great addition to the department. We hope that the town will install a heating apparatus in the station before another winter sets in. There have been but a few days so far but that the truck could have been used had it been kept warm.

After the disastrous fire of March 22, when the buildings of Louis Davis were destroyed, we found that there was quite a lot of hose in bad condition, and 1,000 feet of new hose was purchased, which puts most of the hose in good condition. The apparatus is in good condition, the personel of the department needs no comment. As in the past, they will in the future, do all that they can to protect the lives and property in the town.

The new station is proving to be a very desirable building, nicely situated, plenty of room and with the apparatus room fixed up and a way to keep it warm will be nice quarters for the department.

Fires During the Year

March 22, box 63, Lewis Davis, total loss.

May 12, box 19, Summer cottage, Garnet Street,
small loss.

May 21, box 19, Pulp Mill.

June 10, box 19, Summer cottage, Garnet Hill,
loss small.

June 19, box 19, out of town.

Respectfully submitted

SCHOOL REPORT

DISTRICT OF

SUNAPEE, N. H.

School Warrant

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the School District of Sunapee qualified to vote in district affairs:

You are hereby notified to meet at the I. O. O. F. banquet hall in said district on Saturday, the 11th day of March, 1922, at two of the clock in the afternoon, to act upon the following subjects:

Art. 1. To choose a Moderator for the ensuing year.

Art. 2. To choose a Clerk for the ensuing year.

Art. 3. To choose a member of the School Board for the ensuing three years.

Art. 4. To choose a Treasurer for the ensuing year.

Art. 5. To choose one or more Auditors, and such other Officers and Agents, as the voters may judge necessary.

Art. 6. To hear and act upon the reports of the School Board, Treasurer, Auditor and Committees heretofore chosen.

Art. 7. To see if the District will vote to make any alterations in the report of the School Board, recommending the amount of money required for the support of schools and payment of statutory obligations, as shown by the accompanying budget, calling

for \$15,960, raise and appropriate money for the same and take any vote relating thereto.

Art. 8. To transact any other business that may legally come before said meeting.

Given under our hands this twenty-fourth day of February, nineteen hundred and twenty-two.

Report of School Board

District Officers

Moderator—Herbert B. Sawyer
Clerk—Hugh E. Young
Treasurer—Harriet E. Young
Auditor—Geo. E. Gardner
Superintendent—W. H. S. Ellingwood

School Board

James L. Brooks,	Term ending March 1922
Hattie M. Smith	Term ending March 1923
Pearl M. Perkins,	Term ending March 1924

Your School Board organized with J. L. Brooks, chairman; Pearl M. Perkins, secretary and Hattie M. Smith, treasurer.

The Board feel that the year has been very successful in every way, in work accomplished in school, in securing an efficient corps of teachers that work together for the best interest of the school to obtain the best results and also cooperate with the Superintendent, who has done his best for us.

The Domestic Arts room has been finished and furnished this year and we are proud to say we think it one of the best in this vicinity and is appreciated by the pupils.

A metal ceiling has been put on the grammar room this season, also new toilets have been installed in the boys' basement at the Center building. At

Georges Mills, Wendell and Collins districts the buildings have been painted on the exterior.

The grounds at the Center, between the main school building and what was the fire station have been graded, an improvement that was much needed, as the old ground was much congested during play hours. The attendance has been better than in former years, but there still remains room for improvement, as much depends on perfect attendance.

The transportation has cost more this year but has been done in a very creditable manner, the drivers of both routes looking after the interests of the children and exerting themselves for their comfort. There has been criticism of the cost of transportation.

We wish to call your attention to this—that we have had notices printed in the Newport papers calling for bids on both of these routes and if no one bids, or only one, we have to make the best terms that we can to get a comfortable conveyance for the pupils.

The Parent-Teachers Association has been of much help and we hope it will be continued and all parents and those interested in the schools will attend, and discuss problems that are bound to come up in school matters, with Superintendent, Teachers and School Board. By doing so, you will be better informed in regard to the needs of the schools both financially and otherwise, and could go to the annual school meeting and vote more intelligently.

We submit the following financial report, also the Budget for the finance needed for the ensuing year.

In closing we wish to thank the Superintendent, Teachers and parents, who have cooperated with us to make our schools the best possible.

SCHOOL BOARD BUDGET

Estimated amount of money needed for the sup-

port of schools and for statutory requirements for the year, July 1, 1922 to June 30, 1923.

Administration:

1. Salaries of District Officers	\$ 300.00
2. Superintendent's excess salary	275.00
3. Truant Officer and school census	15.00
4. Expenses of administration	75.00

Instruction:

5. Salaries	10,000.00
6. Textbooks	300.00
7. Scholars' supplies	400.00
8. Flags and appurtenances	
9. Other expenses of instruction	25.00

Operation and Maintenance of School Plant:

10. Janitors	1,000.00
11. Fuel	600.00
12. Water, light and janitors' supplies	75.00
13. Minor repairs and expenses	
Auxiliary agencies and special activities	350.00
14. Medical inspect'n, health supervs'n	
15. Transportation	1,600.00
17. Elementary tuition	72.00
18. Other special activities	50.00

Superintendent's Report

To the School Board of Sunapee:

I hereby submit my sixth annual report of your schools for your consideration and approval:

General

Our district, known as "District Number Forty-three," (43), is one of the largest in the state, both as to the number of miles traveled by the Superintendent and to the number of teachers. There are forty-five teachers divided as follows: Newport, 26; Sunapee, 10; Unity, 6; Goshen, 3. The Superintendent is supposed to visit each teacher at least once every two or three weeks. Sunapee teachers are visited more often than any others as Sunapee pays one-fourth of the Superintendent's salary and has only one-fifth of the teachers. During the years 1919-20 and 1920-21, or the first two years the District was formed, the Superintendent made 1,649 visits; an average of 36 visits per teacher, or a visit to each teacher every two weeks for the two years. Of course some teachers are visited oftener than others as they need much more help, being young and inexperienced. The Superintendent tries to visit where he thinks he can do the most good.

Each year seems to bring with it more, rather than less for the Superintendent to do. He sees each year new possibilities; each year more is being demanded of our schools. Whatever other organizations fail to do the schools are expected to accomplish. The schools must teach, not only the subjects generally known as academic, but also health, cleanliness, man-

ners, thrift, kindness to animals and love of country, town and home.

The Superintendent is wholly dependent upon his teachers for his success. If they are loyal and capable he can accomplish much; if not, he can accomplish but little.

The attitude of the individual members of the School Boards, the parents, and the public as a whole has much to do with the success or failure of the schools. If there is lack of harmony and cooperation between any of them and the superintendent it is at once felt in the atmosphere and work of the school. A few schools in the district have accomplished but little this year as well as previous years for one or more of these reasons. I am glad to state, however, that none of these conditions prevail this year in either Sunapee or Newport.

The citizens of any town will finally have just about the kind of a school they insist on having. The members elected to their School Board determine largely the kind of schools they will have as the School Board is the final authority of nearly all school matters. The Superintendent is but their executive officer and can do only those things approved by them. Some boards give the Superintendent freedom of action and hold him responsible for results; other Boards give him but little freedom; under the latter conditions, but little can be accomplished by him and schools will not improve or accomplish much.

Teachers

Only three of our teachers, Mr. Rowe, Mrs. Bartlett and Miss Collins returned to us last fall. The new teachers are more than meeting our expectations of them. Without exception they are striving faithfully to do whatever is asked of them. They readily accept advice and suggestions and try to cooperate with

all concerned. The schools are already showing the effects of such cooperation.

Six of our teachers are teaching for the first time. This is a large percentage of raw material for any town to have in one year, but we believe your schools to be doing the best work they have done since we have been with you. Inexperienced teachers who are anxious to make good will accomplish more in a year than experienced teachers who will not cooperate or accept suggestions. We have teachers with us who can never be paid, in dollars, what they are worth. As I stated in your report last year, the real teacher is beyond price. Sunapee or any other town, cannot afford to let a few dollars prevent it from retaining the services of such teachers.

Our Schools

Our schools are in the best shape they have been during the past six years. The morale of the Center school is almost ideal. There exists a fine spirit of cooperation between pupils, teachers, headmaster and school officials. Pupils and teachers are working hard to accomplish all possible in the time allotted them. Instead of wasting much of their school time in idleness and play, the pupils are working. With such spirit prevailing we cannot expect too much of them.

The outlying schools are doing good work. The Superintendent is beginning to realize some of the results for which he has been striving. He surely feels much encouraged so far as Sunapee is concerned.

Improvements Made

Georges Mills—The schoolhouse has been painted inside and outside. The flag-pole has also been painted. One or two pictures have been hung on the walls.

Collins—The schoolhouse has been painted on the outside. The flag pole has also been painted. The stove

has been brought from the South Sunapee schoolhouse and installed here. The old stove was worn out. The teacher had three of four swings put up in the yard for the children. This is a start in the right direction. Each schoolyard ought to have swings, see-saws and other play ground apparatus.

Wendell—The schoolhouse has been painted on the outside; also the flag-pole. The spring of fine water has been made sanitary by boxing it above the surrounding surface water.

Center—The efficiency of this building has been greatly added to by finishing off a room on the third floor for the Domestic Arts department. It is also used for other recitations. Our Domestic Arts department now has one of the best quarters in the state, especially among the smaller schools. It is also well equipped: the addition of a cooking stove and several dishes have added to the efficiency of the department. May I add that I believe the department to be doing excellent work under the efficient teaching of Miss Johnson.

The filling and leveling of the yard between the two buildings has added much to the efficiency of the playgrounds. Sunapee has an ideal winter playground and except a few weeks early in the spring and late fall, an exceptionally good summer one. It needs more play apparatus. Again I wish to state, as I did last year, that the citizens have certainly responded generously to the call of their schools. It is a pleasure and a privilege to work for such a town.

Steel ceilings have been installed in the two rooms on the second floor, thus adding much to the appearance and light of the rooms.

The old toilets in the boys' basement have been replaced with new ones. This was a very much needed improvement. They are now clean and sanitary.

Improvements Needed

The remaining rooms and corridors of the Center building need to have steel ceilings installed.

We need more Allen Adjustable shades.

A new floor is very much needed in the Wendell schoolhouse. The paper on the walls should be torn off and the walls made sanitary and presentable. This school also needs a few more modern seats and desks.

The little room on the second floor of the Center building ought to be made into an office for the headmaster, superintendent, and School Board that they may have suitable quarters to do business and not have to use the teachers' dressing room. This office ought to be equipped with suitable desks, shelves, files and a telephone. The data for Sunapee school ought to be filed in Sunapee instead of Newport. The superintendent should have a suitable place to receive pupils, teachers, parents and agents when in Sunapee. He can do better work if he has a suitable place in which to work. Visiting schools is only a part of his work.

Transportation

Our transportation has been very satisfactory to us as a whole, especially that done by Mr. Lambert. He has provided very comfortable shelter for the children.

The children who are attending the Center school from the outlying schools are showing much improvement. We are more than ever of the opinion that the children above the sixth grade should attend this school whenever it is possible. They not only improve in their studies but in many other ways.

Playgrounds

We are still in need of apparatus. The teachers are doing much better this year in supervising the

grounds and games. May we see even more improvement along this line the coming year.

Our High School

We have finally received our unconditional approval of our high school as an "A—4" year high school; which means that we have met all the conditions of the State Board for an approved four year high school. This is for what we have been striving during the past five years. It has been a long, hard struggle but well worth the effort. The reports of the inspectors for the last five years are interesting reading to the superintendent as they show gradual improvement. Although we have succeeded in obtaining the desired approval we do not intend to ease up any in trying to advance. The success of any high school depends very largely upon the work done in the grades. It is only when pupils enter the high school well prepared that the school can do efficient work. Therefore much credit should be given the grade teachers.

The number to drop out of the high school grows less each year as the pupils enter better prepared. This is also true of the upper grades. There is no comparison between the work being done now in your schools and that that was being done five years ago.

Standard Tests

Standard tests have been given in spelling and reading with very satisfactory results; especially in spelling and reading in the upper grades. The second, third and fourth grades are not quite up to the standard grades, but this is no fault of the present teacher.

Other standard tests will be given during the year. These tests have been given to thousands of children throughout the United States thus being standardized by experts.

The Otis Intelligence Tests were given last year and two years ago. They aim to measure the native

ability of the pupils that the teacher may better know what to expect of each pupil. A rank of 70 per cent for one child may mean a greater effort on his part than a rank of 90 per cent does for another child.

These tests aid the teacher to know what to expect of herself and her individual pupils; to be more keenly aware of individual differences. They aid teacher and superintendent to know better what pupils to promote, especially to pick out children of marked ability. They aid the superintendent to measure the efficiency of his school organization and his teachers by checking up the school product with the abilities of the children concerned.

Closing

I can make no more fitting statement with which to close than I used last year—I want to thank all who have in any way contributed to the efficiency of our work and the improvements of our schools. The longer I remain with you the more I become attached to your town and the greater is my interest in its welfare and prosperity. It is a pleasure to work with you and to serve your town. My one great desire is to make your schools more efficient and to help develop your boys and girls into good, happy and prosperous citizens.

Respectfully submitted,

W. H. S. ELLINGWOOD, Supt. of Schools

Headmaster's Report

To the Superintendent of Schools:

I hereby submit my second annual report of Sunapee High School for your consideration and approval.

School opened September sixth with twenty-two regular students enrolled in the high school. Later two special students entered. Of this number, one regular member has left on account of illness and one of the special students has moved away thus leaving at the present time twenty-two pupils.

Owing to a somewhat congested condition in the grammar room, the eighth grade has been seated with the high school pupils and all classes except one are conducted by the high school teachers, thus relieving Mrs. Bartlett somewhat from a schedule which was too great for one teacher to handle. The eighth grade, with a membership of fourteen at the opening of school, has lost only one member, who left as soon as possible after becoming sixteen years of age. There are a few more pupils nearly this age in the eighth grade and unless parents and friends unite with the teachers in an effort to show these pupils the short-sightedness of leaving school the high school will have lost so much opportunity to help the community in an educational way.

The attendance and tardiness records show a marked improvement over previous years. This is one of the factors why we have been classified without reservation as a class "A" high school.

Completion of the new domestic science room has solved the problem of class room. Teachers and pupils

unite in expressing their appreciation for a room so admirably adapted to the use of the Domestic Arts course.

The introduction of a third curriculum has taken only two boys from the agricultural course, and one of them is taking farm carpentry in addition to his regular work. I, therefore, feel justified in recommending that the agricultural course be retained and strengthened in every possible way.

Not only are the high school teachers doing team work but all are united this year as never before since I have been with you in an effort to improve the schools and if we do not succeed it will not be because we have not made the effort.

In closing, I wish to thank one and all who have aided in any way in past work. With the united effort of superintendent, teachers, parents and townspeople, I see no reason why our school cannot and will not be a credit to the town of Sunapee.

Respectfully submitted,

C. W. ROWE, Headmaster
